

Envision Financial Systems Named to
Software Magazine's 27th Annual Software 500

Software Magazine Ranks Envision as one of the World's Largest
Software Companies

Irvine, CA, October 1, 2009 - Envision Financial Systems, Inc., a leading provider of technology solutions to the mutual fund industry today announced its fifth consecutive inclusion on the *Software Magazine's* Software 500 ranking of the world's largest software and service providers, now in its 27th year.

The world's largest, *Software Magazine's* list of the world's foremost software and services providers is available by going to www.myswmag.com and directly requesting a free subscription to digital *Software Magazine* published as an online catalog on www.Softwaremag.com.

"Being consistently recognized among the world's largest Software providers is a testament to the reliability of our products and services," said Tim Kan, President of Envision. "This stability and the recent market turbulence have allowed us to invest in our business and position ourselves for accelerated future growth.

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers targeting medium to large enterprises, their IT professionals, software developers and business managers involved in software and services purchasing.

The ranking is based on total worldwide software and services revenue for 2008. This includes revenues from software licenses, maintenance and support, training and software-related services and consulting. Suppliers are not ranked on their total corporate revenue, since many have other lines of business, such as hardware. The financial information was gathered by a survey prepared by King Content Co. and posted at www.Softwaremag.com, as well as from public documents.

[About Digital Software Magazine, the Software Decision Journal, and Softwaremag.com](#)

Digital Software Magazine, the Software Decision Journal, has been a brand name in the high-tech industry for nearly 30 years. Softwaremag.com, its Web counterpart, is the online catalog to enterprise software and the home of the Software 500 ranking of the world's largest software and services companies, now in its 27th year. Software Magazine and Softwaremag.com are owned and operated by King Content Co.
